

## Testify

Bas

You call me over when the mood's right  
I found another way to you  
You undercover with no blue lights  
You left your lover, is it true?

You call it ushering a new life  
I think that there's probably nothing you won't do in time  
I can always count on you to come through when I need it  
I will never doubt it, I know you're already mine

Mm, I'ma fuck you right  
I'ma fuck you right  
Secret meetings on the weekends  
I won't testify  
I won't testify  
Let me come to yours, or you can spend the night  
You can spend the night  
Let me come to your peak, and I'ma take my time, yeah

Give your word  
Give your word  
Give your word

Give your word you won't tell anybody  
Keep it low 'cause what we doing is private  
Heaven knows we'll get lost in the silence  
Hold me closer to your body  
Hey, I won't tell  
Yeah, I won't tell

Give your word you won't tell anybody  
Keep it low 'cause what we doing is private  
Heaven knows we'll get lost in the silence  
Hold me closer to your body  
Hey, I won't tell  
Yeah, I won't tell
