

That's My Story

Bas

I had a 5 year plan
But in 24 months, bitch I got it all done
24 blunts of the skunk, toast a glass to winners
Drink until I vomit scallops like it stop this dinner
I'm blown, got my shades on
But it's funny right, 'cause this life
Never been this bright
Don't be foolish, boy, it's always more to it
Stuck between a rock and a boiling pot
Lead a whole block, leading all for doctors
What you on? I'm a put a song
I ain't talkin pebbles when I tell em that we stoned
Oh so fade, bitch I'm oh so faded
Shine like my life, gold plated
Hungry like it's Budapest, Shawty who da best?
Roll the mook, let me do the rest, yea

Ride around them folks, holler at my folks
Got a lot of smoke, pockets on hella toast
Stinky green, sticky green, let me set the scene
Flee the scene and my weapon clean, fiend

That's my story and I'm sticking to it
That's my story and I'm sticking to it
That's my story and I'm sticking to it
That's my story and I'm sticking to it

This ain't Amsterdam but we go Dutch
Click, you could pay for your own lunch
You clearly have the wrong one
I mean you clearly must be on one, ah ah
You wanna see me? Lately see me when it's all done
With all behind it was all fun, um
Living out my dreams, I don't need to sleep
Going offroad, I don't need a G
I'm a leader, sky beaming, I seen it, had a vision
Purple drapes, high ceilings, purple haze, high ceilings
I just keep on getting better, I'm amazed how ceilings are
Never cap like the snaple fact, matter fact
Make em double back, every fuckin track - counterattack
Here kitty, catacomb, dead to me
Breakfast in bed, honey cones and some head for me
Put me in a song, what she said to me
Well alright

Ride around them folks, holler at my folks
Got a lot of smoke, pockets on hella toast
Stinky green, sticky green, let me set the scene
Flee the scene and my weapon clean, fiend

That's my story and I'm sticking to it
That's my story and I'm sticking to it
That's my story and I'm sticking to it
That's my story and I'm sticking to it
