

[The Others]

Bas

You got a lot, you got a lot, be grateful for it
You got a lot, you got a lot, be grateful for it
You got a lot of pain, I know
Lot of pain I hold
Lot of pain, I hope you and I can let go
I know this road less traveled, gravel and dirt give way (Mm)
Tell me about it, I know it hurts this way (Mm-mmm-mmm)
But it's our time, issues on issues, we keep on gripping these hard times
You witness a star shine and victory lap (Doo-ooh-ooh)

I've been tryna forget this
I won't lie to impress you
I hope I don't regret this
'Cause I won't lie you kill my pride, if you're like the others
You're not the others, you're not the others

You got a lot, you got a lot, be grateful for it
You got a lot, you got a lot, be grateful for it
You got a lot of pain, I know
Lot of pain I hold
Lot of pain, I hope you and I can let go
I know this road less traveled, gravel and dirt give way (Mm)
Tell me about it, I know it hurts this way (Mm-mmm-mmm)
But it's our time, issues on issues, we keep on gripping these hard times
You witness a star shine and victory lap

Now everybody want it
Once upon a time everybody fronted
Big body, six hunnids, all I ever wanted
Just to roll the streets, I'd be so discreet
On the lowest of keys
Heatin' up like Florida keys
But I got so much drive, you should let me hold the keys but
I won't compromise, I might hit that overdrive
'Bout to bring that bitch back
When no tires, run flat
'Til I'm tired run past but

I hope you don't forget this
I won't lie to impress you
I hope I don't regret this
'Cause I won't lie you kill my pride, if you're like the others
You're not the others, you're not the others

You got a lot, you got a lot, be grateful for it
You got a lot, you got a lot, be grateful for it
You got a lot of pain, I know
Lot of pain I hold
Lot of pain, I hope you and I can let go
I know this road less traveled, gravel and dirt give way (Mm)
Tell me about it, I know it hurts this way (Mm-mmm-mmm)
But it's our time, issues on issues, we keep on gripping these hard times
You witness a star shine and victory lap (Ayy, yeah, oh, oh)

(The price of victory is sacrifice)
You got a lot, you got a lot
Hey, oh, you caught me

Oh, you caught me
Caught me off guard
Caught me
Oh, bae, you caught me
Oh, bae, you caught me
Hey
Ooh, ooh-ooh
Hey, oh bae, you got me
Oh, bae, you caught me
Hey, yeah-yeah, yeah, yeah, yeah
Grateful for it
You got a lot, be grateful for it
You got a lot, be grateful
