

Wait On Me

Bas

Just wait on me
Just wait on me, don't ever let go
I love the moments you spending with me
I love the moments you spending with me

Just wait on me
Just wait on me
I'd rather be the pain you endure
I'm heading nowhere
I know there's some peace
I'm ready, no fair
I'll go there

So just wait on me
The best memories, how could you ignore?
I love the moments you spending with me
I love the moments you spending with me

You spending with me
