

# Your World

Bas

You say you want me to have the world (You sure?)  
You say you want me to have the world (Are you sure?)

If Ogee got them bangers than I go forever with flows  
On a blank canvas Bas so incredibly dope  
Giving light to my dreams, I couldn't measure the scope  
Turn that white into green, that's Incredible Hulk  
Man I'm so fly I see the heavens approaching  
The Pearl in them Gates, I'm burning a stogie, than pearling a jay  
My memory fades, that's cool cause every day is a memory made  
The Judge a crook he throw the book at every case  
So we celebrate life, that's for every occasion  
I ran out of patience, I can't be complacent  
When niggas a take a limb and leave you with casings  
My car, it barely start it need a new AC  
My star ripped out my heart and told me replace it  
My job it never call, I need me some wages  
And you, well you, you just need me to make it  
(Ohhhh) You just need me to make it  
I get it I get it I get it, you just need me to make it

You say you want me to have the world (Are you sure?)  
You say you want me to have the world  
I get it I get it I get it

Hit it in the mornin' or the evenin' if that pussy good  
I'm probably never leaving love, do you still believe in love?  
No it ain't real, Damn not even us  
She been down so long she gotta even up  
Nevermind my intentions, of Rari's and mentions  
You see them hoes like it, and now you get defensive  
You prying in my mentions, and I can feel the tension  
You'd rather me a real job, suit ay'?, a pension  
You feel I be a new guy as soon as it sets in  
I feel I'm losing you bout' every second  
Don't you get apprehensive, we served a sentence together, I know you down f  
orever  
Aware of what I got, I couldn't replace it  
You want me for me, see the glory and base it  
I love you for it, cause you can't even fake it  
A heart on the fringe, you don't want me to make it  
You don't want me to make it

You say you want me to have the world (You sure?)  
You say you want me to have the world (Are you sure?)  
No she frontin'  
You say you want me to have the world  
Nah she frontin', Ohh your frontin'  
You say you want me to have the world (Are you sure?)

It's you world [x20]
