

# Take Me Back to Your House

Basement Jaxx

Everybody's alright  
Everybody's heading out  
It's gettin' ugly  
I'm so tired so tired so tired so take me home

It's getting late (getting late)  
Come here and wait for me  
Let's get out of  
This place never changes, it just stays the same  
So take me home

(Come on, let's go)  
I just run away, I've had it here  
I just gotta get out of here, I've had it here  
I just wanna run away, I'm done with this  
Grab your coat, just take me, take me

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Just put a record on  
Make it a country song  
Come on, make a drink for me  
Let's sing along the songs of vacant hearts

Let's stop all the talk  
Let's take it easy now  
We don't have to worry about anything at all until the dawn  
Just take me home

(Come on, let's go)  
I just run away, I've had it here  
I just gotta get out of here, I've had it here  
I just wanna run away, I'm done with this  
Grab your coat, just take me, take me

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Take the keys to my car  
Let's drive

I'm lonely, so lonely

Can I come home with you?  
I'm lonely, so lonely  
Can I come home with you?  
My head is spinning circles, think I need a rescue  
I don't know why I just feel like chillin' with you  
I'm chillin' with you  
I'm chillin' with you  
I'm chillin' with you

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Just take me back to your house, your house  
Come on take me back to your house, your house  
Just take me home  
Don't wanna go home alone

Don't you wanna get out, get out, get out  
Take the keys to my car  
Let's drive

I'm lonely, so lonely  
Can I come home with you?  
I'm lonely, so lonely  
Can I come home with you?  
My head is spinning circles, think I need a rescue  
I don't know why I just feel like chillin' with you  
I'm chillin' with you  
I'm chillin' with you  
I'm chillin' with you

Black ice melting in the stream  
I can't hold on to how I used to be  
A better man would understand, will you?
