

## Right Here

Basement

You made that words so great  
Required by mind and body physically  
We'll leave to bittersweet  
Feelings of happiness and the defeat

It's only us  
Controlling us  
We are free  
I will be right here

Please, will you try to see  
There is no sense hiding from modesty  
Believe in make believe  
And we can be all that which we can be

It's only us  
Controlling us  
We are free  
I will be right here  
I will be right  
I will be right here  
I will be right  
I will be right here  
I will be right
