

Ultraviolet

Basement

If you please get a minute
Tell me of your day
No, that's fine if you're busy
I'm sure this can wait
Any other day
You might've had the time
But you're far too busy
Heading off to the city to try to

Turn the car around
Keep all four wheels on solid ground
Don't let the neighbours down
We'll be watching you home safe and sound

Safe and sound

When you made it on the bridge
Did you think about your life
Or had you already made up your mind?

Turn the car around
Keep all four wheels on solid ground
Don't let the neighbours down
We'll be watching you home safe and sound

Bodies danced to the sound of screams and broken glass
Even the air above our heads won't take a breath
Bodies danced to the sound of screams and broken glass

Turn the car around
Keep all four wheels on solid ground
Don't let the neighbours down
We'll be watching you home safe and sound

Safe and sound

If you please get a minute
Tell me anything
I promise I'll listen
