

No Control

Basia Bulat

Breathe in, breathe out
The future is a game for us
Never plays out the way it was
I believe it now

But when a tide turns on me
Turns against me and I fall
Fall into the unknown
Nowhere I have been before
All I want is to go on
I swear that I can make it gold
I keep trying to hold on
To my love with no control

When I keep on falling
You left me with no warning
Now I'm still waiting for it
Our love with no control
No control, no control, no control

And I don't see why
The price we have to pay for love
Gets higher on the way back up
When we're living now

But when a tide turns on me
Turns against me and I fall
Fall into the unknown
Nowhere I have been before
All I want is to hold on
I swear that I can make it gold
I keep trying to hold on
To my love with no control

And I keep on falling
You left me with no warning
And I'm still waiting for you
A love with no control
No control, no control, no control

Now I don't belong to you
You left me with no warning
Forget me when I'm falling
Our love with no control

No control, no control
No control, no control

There's no future where I'm falling (No control, no control)
No control, no control
Now I don't know how to love with (No control, no control)
No control, no control
There's no future where I'm falling (No control, no control)
No control, no control, no control

I keep on falling
You left me with no warning

And I'm still waiting for you
A love with no control
No control, no control, no control

I don't belong to you
You left me with no warning
Forget me when I'm falling
My love with no control

No control, no control, no control
No control, no control
No control, no control
