

The Last Time

Basia Bulat

Please don't wait
I know you'll be gone for a while
Plans you made
Now I'm in the way of the ride

Keep on singing softly to me
I won't hold on tight
This might be the last time

Please don't stay
We know that it wouldn't be right
Old mistakes
We're playing them night after night

Keep on singing softly to me
Don't turn out the light
This might be the last time
This might be the last time

Oh I know that you don't want it to be the last time

(adsbygoogle = window.adsbygoogle || []).push({});
And you said that you don't want it to be the last time
Oh I know that you don't want it to be
When you swore it up and down on your knees
That all you really wanted was to be free
Well what else could I have done to believe you?
When my mistakes aren't enough to keep me away
From what it is I think that I need
Now we're exactly where we said we would be
The last time
