

Like Crazy

Basia

We have nothing in common
But I want you still like crazy
We have nothing in common
But I want you all the same like crazy
Nothing in common
But I want you still like crazy
We have nothing in common
But I want you, still I want you

You will never know how black I'm feeling
But I want you still like crazy
Wish you were a better human being
But I want you all the same like crazy
In my dream you are perfect
Kinder, sweeter, clever
I'm in love with just an idea of you, I know
Still I want you

When you cry I glimpse your tender heart
But I want you
But it's not beating for me
We have nothing
And I realise it's not smart dancing to your tune
So I can't understand it
Nothing in common
One moment you're cold, then you're caring
What is this game you are playing
I'm so close to losing my mind
Still I want you

You will never know how black I'm feeling
But I want you still like crazy
Wish you were a better human being
But I want you all the same like crazy
In my dream you are perfect
Kinder, sweeter, clever
I'm in love with just an idea of you, I know
Still I want you

Enough!
This insanity has to stop
We have nothing in common
I lost my pride, who'd have ever thought
But I want you all the same like crazy
In my head we are perfect
I want you still like crazy
I'm in love with a foolish idea of you and I
'Cause I want you
