

# No Heartache

Basia

I just want someone to dance with  
I just want someone to dance with  
And I don't care for emotions  
I don't expect his devotion  
I just need someone I can dance with  
'Cause I'm tired of dancing alone

Don't want to walk away with anyone  
Take some risky steps to try it out  
Trip the light fantastic every time  
It's allowed to stumble, trip or fall  
No jealousy, no heartache

I just want someone to dance with  
I just want someone to dance with  
And I don't care for emotions  
I don't expect his devotion  
I just need someone I can dance with  
'Cause I'm tired of dancing alone

Don't want to walk away with anyone  
Take some risky steps to try it out  
Trip the light fantastic every time  
I would rather stumble, be a fool  
No jealousy, no heartache  
No heartache  
No heartache

We are making progress  
And no matter if you're out of step  
You may skip 'n spin 'n swing or sway  
It's allowed to stumble, trip or fall  
No jealousy, no heartache  
No heartache

I just want someone to dance with  
I just want someone to dance with  
And I don't care for emotions  
I don't expect his devotion  
I just need someone I can dance with  
'Cause I'm tired of dancing alone

I just want someone to dance with  
I just want someone to dance with  
And I don't care for emotions  
I don't expect his devotion  
I just need someone I can dance with...
