Pandora's Box

Basia

In my little fortress
Was a box of secrets
But you made it happen
I threw them to the universe

Now the lies have vanished
Turning into space debris
I should have done it sooner
At last they're floating far away from me

For one fleeting moment we are here
The next one all is gone
There's nothing in between but love
That blink of an eye is our only time
Don't waste it and pretend that you don't care
I know you do, you do
I know you do
You do, you do
I know you do

And despite the distance
And despite the difference
You were there to help me
Empty my Pandora's Box

Once I choked on silence
Now you tell me that was wrong
I will dream forever
Because inside the one thing left is hope

For one fleeting moment we are here
The next one all is gone
There's nothing in between but love
That blink of an eye is our only time
Don't waste it and pretend that you don't care
I know you do

For one fleeting moment we are here
The next one all is gone
There's nothing in between but love
That blink of an eye is our only time
Don't waste it and pretend that you don't care
I know you do

For one fleeting moment we are here
The next one all is gone
There's nothing in between but love
That blink of an eye is our only time
Don't waste it and pretend that you don't care
I know you do
You do, you do
