

Show Time

Basia

We had a plan
Now it's almost done
And only silly smiles
Petty crimes
Cruel sighs
Little lies
Between us
And you know like I know
This marriage had its run
Although it's just a pun
'Cause we were never married

We were the perfect dancing partners
That's what the people say
And maybe it's a shame
This dance will have to end
Just take another bow
Put on a beaming smile

And it's show time
You're on your own now
It's a scary ride
No one on your side
Standing in the wings
I will be watching you
'Cause it's show time

Here I go again
It's the same old song
Any fool but me could sing
A different tune

Playing to the crowd
Maybe one more time
But it breaks my heart in two
To hide the truth
And we do, and we do

And it's show time
You're on your own now
It's a scary ride
No one on your side
Standing in the wings
I will be watching you
'Cause it's show time

We had a plan
And we were the perfect dancing partners
That's what the people say
And maybe it's a shame
This dance will have to end
Just take another bow
Put on a beaming smile

And it's show time
You're on your own now
It's a scary ride

No one on your side
Standing in the wings

'Cause it's show time (I'm stepping up)
You're on your own now (stepping up, I'm stepping up)
It's a scary ride
No one on your side
Standing in the wings
I will be watching you
'Cause it's show time

We had a plan
It's almost done
Nothing left between us
We had a plan
It's almost done
Nothing left between us
