

# They Know Nothing About Us

Basia

Right from the start there was none who had faith in us  
Who believed two of us had a chance  
Many years  
Precious scars  
We survived  
We are stronger

they don't know about us  
They know nothing about us  
They don't understand  
They know nothing about us  
They don't know about us  
They know nothing about us  
No, nothing about us  
They don't get our love

wish we could be somewhere else  
Where they wish us well  
Where the people are happy for us  
Just imagine how far we could go  
What we could do
