Talk About It

Basic Boy

I'll make her purr
Like a little kitten
Boy you must be kidding
No
On a table in the kitchen
Oh
All these bitches at my shows
Yeah I may teach 'em
But she's the One
She she
Tease my gun (uh)
Fucking then and know
I am more Bruiser
Than Gucci Louis
She's more Wang
Than Wu-Tang
That thing twerkin'
Do it 'til the morning
Huh
Huh
And then we falling
We falling huh

She's Monroe but Norma
More Jean than Marilyn
Girl don't be shy uh-huh
Just come clean
Not as easy as it seems
Different reality
Portals dreams
You're my Elisabeth
I'm your Dewitt

We both in it
Let's play with it
We both tripping
Let's just beat it
Girl
We're infinite
(Infinite)

Every time I'm falling down
I am here
In the room with purple walls
Every time I fall
(Every motherfucking time)

Every time I'm falling down
I am here
In the room with purple walls
Every time I fall
(Every motherfucking time)

And then we waking up
We turning up again
Like never
Talk about it

Talk about it

Girl
Just talk to me
I know you see
I know you hear
I know you fear
I know you closer
Than anybody here
Then
Why you think that it was just
Fuck and drink
The bestest thing
We go up high
Never know if you don't even try
That swell guy
Livin' hell of life
Day and night
Edge of a knife
Catcher in rhye
End the book
Throw the hook
Catch 'er up
That's what I took
Turning up
Yeah she's my nuke
Closer look
Atomic boom, girl
I think I've got a clue

Every time I'm falling down
I am here
In the room with purple walls
Every time I fall
(Every motherfucking time)

Every time I'm falling down
I am here
In the room with purple walls
Every time I fall
(Every motherfucking time)
