

Feelings

Basic Element

I try to stop thinking about you night and day
I try to call but doesn't matter what to say
You know I did everything just to make you stay

I got these feelings
I got these feeling in my head
'Cause I'm not sleeping
When you're not sleeping in my bed

Just turn it around
And try to see the way I'm doing tonight
Every night
But don't make a sound
'Cause every time you do
You don't make it right
Only lies, it's only lies

Awoke
A city that I've never been told
I see this woman in a bed
'Cause she don't call me
Well I do know how she kiss it
We ended up in a bed like this
It all started with a
And I'll die she took my hand
