Guess what?

We're back again

We're gonna rock the world!

We stand up united, we're fighting as friends  
We'll be there tomorrow, yeah right to the end  
Freedom, we're talking 'bout freedom  
We walk through the fire, we walk through the rain  
The kind of desire that does never fade  
Freedom, we're talking 'bout freedom

(Chorus)

We're gonna rock the world and make the goal  
We're gonna shock the world, we're gonna rock all the world tonight  
We're gonna rock the world and get it right  
We're gonna rock the world and make the goal  
We're gonna shock the world, we're gonna rock all the world tonight  
We're gonna rock the world and get it right

Everybody go down, everybody go down, everybody go down,  
To back up my heat...  
Everybody go down, everybody go down, everybody go down,  
To back up my heat

Every-every-body-body go-go down-down,  
Every-every-body-body go-go down-down,  
Every-everybody go down, everybody go down, everybody go down,  
To back up my heat

Everybody go down, everybody go down, everybody go down,  
To back up my heat  
Everybody go down, everybody go down, everybody go down,  
To back up my heat  
We're gonna rock, we're gonna rock the world  
Everybody go down, everybody go down, everybody go down,  
To back up my heat

(Chorus) x2

We stand up united, we're fighting as friends  
We'll be there tomorrow, yeah right to the end

Freedom, we're talking 'bout freedom  
We walk through the fire, we walk through the rain  
The kind of desire that does never fade  
Freedom, we're talking 'bout freedom

(Chorus)

We're gonna rock the world!
