

## Just Business

### Bass Drum of Death

When I want to  
You know I got to shout it out  
So proceed I just want to careen  
But I got to wait it out  
When it feels right  
You know I got to shout it out  
Take a shot  
And it's not what I thought  
Maybe I'll just take a bow

Even though  
Your heart seems gold  
Oooh it's so cold

If it's just business then I really wanna know  
If it's just business then I really wanna know  
If it's just business then I really wanna know

I'll take the next car  
Go ahead and ride it out  
You're in my lane  
But it's not quite the same  
I can't help but shout it out

To the next bar  
You don't show so I sweat it out  
I'm outta my league  
But I can't make a scene  
I probably should just take it out

Even though  
Your heart seems gold  
Oooh it's so cold

If it's just business then I really wanna know  
If it's just business then I really wanna know  
If it's just business then I really wanna know

Even though  
Your heart seems gold  
Oooh it's so cold

If it's just business then I really wanna know  
If it's just business then I really wanna know  
If it's just business then I really wanna know
