

Too Cold to Hold

Bass Drum of Death

[Verse]

I sat down and dipped my toe in
There was no way that I couldn't know
Ice queen with all the sheen, yeah
As she slithered and put on a show

There's no way to win in this place of sin
You get whipped and ripped to and fro
Ice queen with all the sheen, yeah
Then I reached for a hundred more

[Chorus]

Too cold to hold now, baby
But I want the world to know
You're solid gold now, baby
I wanna let it show

[Verse]

As she sold me on my way down
Tried to tell me but I didn't know
Getting low with her chilled crown
Had me wrapped up with a bow

[Chorus]

Too cold to hold now, baby

But I want the world to know
You're solid gold now, baby
I wanna let it show

Too cold to hold now, baby
But I want the world to know
You're solid gold now, baby
I wanna let it show

[Verse]

And then I put down a ten
It's not a game I can win
And then I put down a ten

[Chorus]

Too cold to hold now, baby
But I want the world to know
You're solid gold now, baby
I wanna let it show

Too cold to hold now, baby
But I want the world to know
You're solid gold now, baby
I wanna let it show

I wanna let it show
I wanna let it show
