

LIFE SPEAKS TO ME

Basshunter

Sometimes I'm gonna hurt you like a friend
Sometimes I'm gonna let you down
But then one day I'll pick you up again
That's how my life speaks to me

I'm always there to keep you company
But I can't promise I'll be easy
There will be fortune, fame and misery
That's how my life speaks to me

Oh
When my life speaks to me
Oh
When my life speaks to me
(When my life speaks to me)

When my life speaks to me
When my life speaks to me

Can never tell you what the future holds
I'm just asking you to hold on
Ain't how you wanna live but how you grow
That's how my life speaks to me

I'm always there to keep you company
But I can't promise I'll be easy
There will be fortune, fame and misery
That's how my life speaks to me

Oh
When my life speaks to me
Oh
When my life speaks to me
(When my life speaks to me)

When my life speaks to me

When my life speaks to me
(When my life speaks to me)
When my life speaks to me
(When my life speaks to me)
