

High

Bassnectar

Pull me away, pull me to life
'Cause I love it when you get me high
Watching these days, tune in the nights
'Cause I love it when you get me high

Drink up till you're running through my blood and
Leave my body numb and
I like it way too much
I wanna stay out of my mind

'Cause I love it when you get me high
'Cause I love it when you get me high
'Cause I love it when you get me high
'Cause I love it when you get me high

(Pull me away)
Pull me away, pull me to life
'Cause I love it when you get me high
Watching these days, tune in the nights
'Cause I love it when you get me high

Drink up till you're running through my blood and
Leave my body numb and
I like it way too much
I wanna stay out of my mind

'Cause I love it when you get me high
'Cause I love it when you get me high
'Cause I love it when you get me high
'Cause I love it when you get me high

(Pull me away)
(Pull me away)
(Pull me away)
