

## Бонни И Клайд

Basta (Баста)

We're like Bonnie and Clyde  
Any day or night  
Ride away in my ride  
Die together after life

We on a journey, fast  
And lose distant past  
Only God believe in us  
Die together after life

Bonnie and Clyde  
We burning on fire  
Die together after life

Listen, Charlie, I'm going to bed  
Probably not coming back  
You're my bride, you're my wife  
Die together after life

Bullet never known no mercy  
White church, covered in roads  
Run away in my ride  
Die together after life

Bonnie and Clyde  
We burning on fire  
Die together after life

Bonnie and Clyde  
We burning on fire  
Die together after life

Die together after life  
Die together after life
