

Бонни И Клайд

Basta (Баста)

We're like Bonnie and Clyde
Any day or night
Ride away in my ride
Die together after life

We on a journey, fast
And lose distant past
Only God believe in us
Die together after life

Bonnie and Clyde
We burning on fire
Die together after life

Listen, Charlie, I'm going to bed
Probably not coming back
You're my bride, you're my wife
Die together after life

Bullet never known no mercy
White church, covered in roads
Run away in my ride
Die together after life

Bonnie and Clyde
We burning on fire
Die together after life

Bonnie and Clyde
We burning on fire
Die together after life

Die together after life
Die together after life
