

# Another Place

Bastille

I am bound to you with a tie that we cannot break  
With a night that we can't replace  
I'm lost but found with you in a bed that we'll never make  
It's a feeling we always chase

I could write a book about the things that you said to me on the pillow  
And the way you think, and how you make me feel  
You can fill my mind and move my body with the fiction, fantasies  
Just call this what it is, we don't pretend it's real

So don't make promises to me that you're gonna break  
We only ever wanted one thing from this  
Don't paint wonderful lies on me that wash away  
We only ever wanted one thing from this  
Oh, in another place  
In another time, what could we have been?  
Oh, in another place  
In another time, what could we have been?

Mm, in another time  
And in another place

So lie to me tonight and pretend 'til the morning light  
And imagine that you are mine  
'Cause when the sun will rise with the truth coming out your eyes  
We'll be good in another life

I could write a book about the things that you said to me on the pillow  
And the way you think, and how you make me feel  
You can fill my mind and move my body with the fiction, fantasies  
Just call this what it is, we don't pretend is real

So don't make promises to me that you're gonna break  
We only ever wanted one thing from this  
Don't paint wonderful lies on me that wash away  
We only ever wanted one thing from this  
Oh, in another place  
In another time, what could we have been?  
Oh, in another place  
In another time, what could we have been?

Feels like something's special but it never felt like love  
Wonder what we could be living in another life  
Catch us in the mirror and it looks a lot like love  
Then you stop me talking as you kiss me from above

So don't make promises to me that you're gonna break  
We only ever wanted one thing from this  
Don't paint wonderful lies on me that wash away  
We only ever wanted one thing from this  
Oh, in another place  
In another time, what could we have been?  
Oh, in another place  
In another time, what could we have been?

Oh, yeah  
In another time

And in another place
