

# Back To The Future

Bastille

Feels like we danced into a nightmare  
We're living 1984  
If doublethink's no longer fiction  
We'll dream of Huxley's Island shores

Waking life, it let's us down  
So close your eyes and melt away

In the middle of the night  
I can dream away  
Change what I like and go back to the future again  
In the middle of the night  
Gonna scream your name  
Bring you to life then go back to the future again

In the middle of the night, ahoo  
Aho

Now that reality's distorted  
Can we just Blade Run-Run away  
Back into some imagined future  
Let's tap our heels three times and pray

Uh, waking life, it let's us down  
So close your eyes and melt away

In the middle of the night  
I can dream away  
Change what I like and go back to the future again  
In the middle of the night  
Gonna scream your name  
Bring you to life then go back to the future again

In the middle of the night, ahoo  
Aho  
In the middle of the night, ahoo  
Aho

Hey, uh, uh

Uh, take me back to the future  
Uh, take me back to the future  
Uh, take me back to the future  
Uh, take me back to the future  
Uh, let's go back to the future  
Uh, let's go back to the future

In the middle of the night  
Can I dream away?  
Bring you to life then go back to the future again  
In the middle of the night (Aho)  
In the middle of the night  
In the middle of the night, ahoo  
Aho
