

Bathsheba & Him

Bastille

When they say "Bathsheba, bet you can't believe your luck
Sat there bathing on the top of the roof"
I feel this rage flaming 'cause some king caught up in lust
Clicked his fingers, took advantage of youth

'Cause power, power, power brings the worst out of everyone
Just look at what you fucking did to me and my love

When you came and you took what you wanted
You're the kinda motherfucker that'll always get your way
Yeah, you just came and you took what you wanted
Drag me underneath the covers and just get on with your day
We're just caught up in the wake of you (In the wake of you)
I guess guys like you, that's what you do (That's just what you
do)

My love Uriah, you send him off to die in war
For this babe you gave me like a bruise
Watch me survive this, my Lord, you're rotten to the core
Still those holy books won't tell my truth

Did you blink before you slashed and burned
For all of your desires?
Guess think the world around you turns
For all of your desires

When you came and you took what you wanted
You're the kinda motherfucker that'll always get your way
Yeah, you just came and you took what you wanted
Drag me underneath the covers and just get on with your day
We're just caught up in the wake of you (In the wake of you)
I guess guys like you, that's what you do (That's just what you
do)
