

# Mademoiselle & The Nunnery Blaze

Bastille

Caught your eye 'cross a busy room  
Like the moon and sun rolled up into one  
Born and raised with these silver spoons  
Spat them out to choose the pursuit of love

Leave with me, babe, we could sack off this place anytime  
Just make an excuse and we'll leave all these losers far behind us

'Cause oh, mon amour - say the word and I will go with you anywhere  
C'est toi que j'adore - you're the Earth, the moon, the stars, the air in every breath  
Ooh, we could go anywhere, we could fly away from here  
Ooh, like two birds up in the air, we could fly off anywhere

They locked you up in a holy place  
I joined you anyway  
Let's burn it down in flames  
'Cause all my crimes get forgiven by  
The king and all Versailles  
For this voice of mine

Let's be who we are and just love together with our one life  
And they can all try to catch up with our love in their own time

'Cause oh, mon amour - say the word and I will go with you anywhere  
C'est toi que j'adore - you're the Earth, the moon, the stars, the air in every breath  
Ooh, we could go anywhere, we could fly away from here  
Ooh, like two birds up in the air, we could fly off anywhere

Love dresses up in many ways  
Ne soyez pas tous cons avec ça  
Yeah, love dresses up in different ways  
Ne soyez pas tous cons avec ça

Oh, je t'aime, je t'aime, je t'aime  
Viens avec moi, viens avec moi  
Oh, je t'aime, je t'aime, je t'aime  
Viens avec moi, viens avec moi

Oh, je t'aime, je t'aime, je t'aime  
Viens avec moi, viens avec moi  
Oh, je t'aime, je t'aime, je t'aime  
Viens avec moi, viens avec moi

Oh, mon amour - say the word and I will go with you anywhere  
C'est toi que j'adore - you're the Earth, the moon, the stars, the air, you're every breath
