

# Run Into Trouble

Bastille

I drove past your house last night  
And it all came crashing in  
Every memory  
I didn't recognize your street  
Now the light hits differently  
'Cause you're not with me

Was I not what you want?  
Was I not what you need?  
I can't crawl at your feet  
This ain't healthy for me  
(This ain't healthy for me)

I run into trouble tryna let you go  
'Cause I still feel the high, the love, the vertigo  
My head's gonna spin around until I let you know  
That I just can't get over you  
I just can't get over you

I run into trouble tryna let you go  
'Cause I still feel the high, the love, the vertigo  
My head's gonna spin around until I let you know  
That I just can't get over you  
I just can't get over you

Ooh  
(I just can't get over you)  
Ooh  
Yeah, I just can't get over you  
Ooh  
(I just can't get over you)  
Ooh  
Yeah, I just can't get over you

I'm at that restaurant you love  
Wondering what the hell I want  
I'm stupid to come here  
Then your favourite song comes on  
I roll my eyes and sing along  
'Cause I never liked it

Was I not what you want?  
Was I not what you need?  
I can't crawl at your feet  
This ain't healthy for me  
(This ain't healthy for me)

I run into trouble tryna let you go  
'Cause I still feel the high, the love, the vertigo  
My head's gonna spin around until I let you know  
That I just can't get over you  
I just can't get over you

Whoa, I  
Whoa, I just can't get you out of my mind  
Whoa, I  
Whoa, I just can't get you out of my mind

So I run into trouble tryna let you go  
'Cause I still feel the high, the love, the vertigo  
My head's gonna spin around until I let you know  
That I just can't get over you  
I just can't get over you

Ooh  
(I just can't get over you)  
Ooh  
Yeah, I just can't get over you  
Ooh  
(I just can't get over you)  
Ooh  
Yeah, I just can't get over you
