Kids in the Dark

Bat for Lashes

Lying next to you
We could be on the moon
Tell me you're not leaving

'Cause you're always on my mind It's been such a dark night Boy, I know you've been grieving

Riding through the pines See you in the red light And everything is on fire

Let's take it down
To the heart
Let's take it down
To where the loving starts
Where we're just kids in the dark

Lying next to you
And I wanna live for two
I tell you I'm never leaving

'Cause you're always on my mind It's been such a hard time But I know it's the real thing

Riding through the pines See you in the red light And everything is on fire

Let's take it down
To the heart
Let's take it down
To where the loving starts
Where we're just kids in the dark
