

I Form

Baths

If I form that
If I form that

Graduates of tablature and bouquet of garages
Put us out to those mirages and nail it till we bust
I'm 16 and I'm unit, our instruments can do it
Every ounce shows that we blew it, we couldn't get to us

If I form that
If I form that
Sing to me, I'm letting down, I'm falling

This fever slips, feeling the bouts of shivering
[?] sweat glands bleeding
Witnessed closest things with the loudest feelings
Come free in comradery

This fever slips, feeling the bouts of shivering
[?] sweat glands bleeding
Witnessed closest things with the loudest feelings
Come free in comradery

Well, the lecture is young
Dote on the friends of your loves
Sweet, sweet suffer is with each other

If I form
If I form
If I form

If I form that

Severed but spun in a loom
From silks of the Moon glow the vans of my youth
Now this performing body is all remaining moves
Floating my comradery in groups

If I form that
If I form that
If I form that
If I form that
If I used to be something more

This fever slips, feeling the bouts of shivering
[?] sweat glands bleeding
Witnessed closest things with the loudest feelings
Come free in comradery

This fever slips, feeling the bouts of shivering
[?] sweat glands bleeding
Witnessed closest things with the loudest feelings
Come free in comradery

Well, the lecture is young
Dote on the friends of your loves
Sweet, sweet suffer

If I form that
If I form that
If I form that
If I form that
