

Bat Attack

Batmobile

When I went for a treasury hunt in a place far far away
I really had a scary nightmare for the time I went to stay
I thought I could find it in a place called Devil's Cave
I was warned by a 1000 men but I just couldn't wait
It was a bat attack they scared me to death it was a bat attack
I walked through the woods for a 100 miles it was raining all the time

After a week I saw a cloud of bats coming my way
Searched for a place to hide that I thought they couldn't find
But they were fast, their teeth were sharp and my screams were very loud
I walked through the woods for a 200 miles it was raining all the time
After a week I saw a cloud of bats coming my way
Searched for a place to hide which I thought they couldn't find
But they were fast, their teeth were sharp and my screams were very loud
