

Killer's Crew

Batmobile

Terror in the city morning noon and night
Try to hide for them don't get in their sight
As they catch you once they turn you in a wreck
Put you full of lead or break your neck
We are the killers crew don't know what to do
We are the killers crew we're gonna kill you
Terror in the city their missions never fail

Never in on Christmas always free on bail
If you don't pay for protection they kill you for two dimes
The cause of all evil the source of all crimes
We are the killers crew don't know what to do
We are the killers crew we're gonna kill you
