

## Killers Crew

## Batmobile

Terror in the city morning noon and night  
Try to hide for them don't get in their sight  
As they catch you once they turn you in a wreck  
Put you full of lead or break your neck  
We are the killers crew don't know what to do  
We are the killers crew we're gonna kill you  
Terror in the city their missions never fail

Never in on Christmas always free on bail  
If you don't pay for protection they kill you for two dimes  
The cause of all evil the source of all crimes  
We are the killers crew don't know what to do  
We are the killers crew we're gonna kill you
