Uranium Love

Batmobile

I got a long lizard-woman slitherin' down the place
She's got the skin of a snake and the pretties face
A big curl in her tongue a thing you've never seen
She's got big eyes Emerald green

Sometimes it's tender and sometimes it's rough
I know it's radiant, Uranium Love
The only thing I'm thinking of
I want U-u-ranium Love

The day we met she came down in a UFO
She looked me deep in the eyes and said come on let's go
So I went with her in that shuttle and I couldn't get enough
When she treated me with that Uranium Love

Sometimes it's tender and sometimes it's rough
I know it's radiant, Uranium Love
The only thing I'm thinking of
I want U-u-ranium Love

From that day on she's been wiggling her spatial hips
She moves me right up from my feet upto my fingertips
I surely hope she'll never leave me cause I'll deeply miss
That everlasting lunar kiss
