

## Here We Are

**Battle Beast**

Here we are  
Standing strong  
Hand in hand  
We carry on

Together we face the storms and rain  
The mountains that test our will and pain  
Unyielding, we keep going on and on  
As dusk fades, the sun begins to rise  
The shadows are gone and cast aside  
The truth lies beyond the burning skies

Here we are  
Standing strong  
Hand in hand  
We carry on

Finally, the path is clear  
Lighting up the darkest night  
Never has it been so near  
A sweet victory

To Hell, through the depths of searing flame  
Through valleys of ice that know no name  
We are as one, we don't give in

Here we are  
Standing strong  
Hand in hand  
We carry on

Finally, the path is clear  
Lighting up the darkest night  
Never has it been so near  
A sweet victory

(Here we are  
Standing strong)  
A sweet victory  
(Hand in hand  
We carry on)
