

## Let It Roar

### Battle Beast

I am a space traveler on a distant Planet X,  
Seeking directions back to Earth  
My heartbeat's everlasting,  
I fear not the unknown,  
The thought of you drives me on,

Just let it roar,  
There is Hell inside of me that no one knows,  
Just let it roar, oh baby,  
Put your fire in my soul

I race the cosmic storm winds  
To see you once again  
Deep inside I know I fool myself  
but I don't care  
This endless journey will never take me home  
I carry in me hopeless love

Just let it roar,  
There is Hell inside of me that no one knows,  
Just let it roar, oh baby,  
Put your fire in my soul

I ride a silver angel, I've circled every star  
I've touched the the edge of the universe  
But the closer I try to get to you  
The more far away I'll be  
I wanna scream!

Just let it roar,  
There is Hell inside of me that no one knows,  
Just let it roar, oh baby,  
Put your fire in my soul

Let it roar!
