

# Control

## Battle Tapes

Hopped in the saddle of a horse with no name  
Took me to the river and let me drown in the wake  
Of you  
Of only you

Prayed to the heavens for a way to sustain  
Hell bent turning holy water into champagne  
For you  
For only you

Give it some time  
Take all my money  
It won't be long  
Until everybody's losing control  
Sweeter than honey  
Somehow  
Everybody's losing, everybody's losing control

Feels like I'm cutting up lines drawn in the sand  
Freebasing motor oil with the blood on my hands  
From you  
From only you

Infatuated with the sorted details  
Help my aching body coming off of the rails  
For you  
For only you

Give it some time  
Take all my money  
It won't be long  
Until everybody's losing control  
Sweeter than honey  
Somehow  
Everybody's losing, everybody's losing control

Give it some time  
Take all my money  
It won't be long  
Until everybody's losing control  
Sweeter than honey  
Somehow  
Everybody's losing, everybody's losing control

Give it some time  
Take all my money  
It won't be long  
Until everybody's losing control  
Sweeter than honey  
Somehow  
Everybody's losing, everybody's losing control

Give it some time  
Take all my money  
It won't be long  
Until everybody's losing control  
Sweeter than honey

Somehow

Everybody's losing, everybody's losing control
