Battle Tapes

Things ain't like the way they use to be
Knick-Knack Cadillac, get down on your knees

Hear voices through the wall
Whole room comes to their feet
I know it's never enough
Rendered obsolete

Just a shot in the dark
My God, what have you done?
Spills out in to the streets
All bows down to...

Valkyrie
Tell me everything and baby I'll believe
Dancin' with the devil sweating gasoline
Rollin' down the river
Cause it's automatic, so dramatic, every times guaranteed

Valkyrie
Tell me everything and baby I'll believe
Dancin' with the devil sweating gasoline
Rollin' down the river
Cause it's automatic, so dramatic, every times guaranteed

Caught you two steppin' with your back against the record machine
Hi-jacked train of thought, calibrated full release

Over and over their gaze becomes fixed
And its tooth against tongue and tongue against lips
Well they're walking so tall as they're swinging their dicks
But all they ever want to talk about is
Talk about is, talk about is...

Valkyrie
Tell me everything and baby I'll believe
Dancin' with the devil sweating gasoline
Rollin' down the river
Cause it's automatic, so dramatic, every times guaranteed
