

I See The Winter In Your Heart

Battlerage

In the sad twilight
I wait for the green line
I remember the rain
Drowning in wine

The princess of light
The prince of doom
the burning stars
The cosmic tomb

I feel you in the darkness
I feel you in
the mystery of time
I see you're lost
I see the winter
In your heart

I will never forget you
I will never leave you
I'm inside a mirror
Mirror that
I'm going to break

I feel you in the darkness
I feel you in
the mystery of time
I see you're lost
I see the winter
In your heart!
