

# Sword of the Flame

Battleroar

Shadows in the dungeon  
Dance all around me  
The ghosts of the tortured  
Spirits of the dead

Like poisonous Venom  
Black necromancy  
Has possessed my fortress  
A curse on my head

Pestilence spread o'er my lands  
Ichor seeps out of the sand  
Is this the wrath of the gods  
Is this the time of the fall of mankind

Darkness is threatening the light  
Winged demons come in flights  
My men still loyal at my side  
Together we stand and fight for love and life

I wield the sword of the flame  
To bring back the light once again  
This shall remain man's domain  
I'm now the hunter of demons with sword of the flame

We shall have vengeance in the blade  
We are the metal brigade  
We are the last in the line  
It is our honour to die for love and life

I wield the sword of the flame  
To bring back the light once again  
This shall remain man's domain  
I'm now the hunter of demons with sword of the flame

Come into the light  
Come into the light  
I'm now the hunter of demons with SWORD OF THE FLAME  
I'm now the hunter of demons with SWORD OF THE FLAME

By the lords of light  
Vengeance is my name  
Bringing back the sight  
WITH THE SWORD OF FLAMES

By the lords of light  
Vengeance is my name  
Bringing back the sight  
WITH THE SWORD OF FLAMES
