

# Watch That Grandad Go

Bauhaus

I'm sitting tight  
I'm holding still  
The flowers bite  
The cobweb's still  
We walk in file  
We stand in line  
The drug is in  
And we (did not)

Since you've been so lonely  
Pain will cease to tease you  
Scars may not be ugly  
A doll's leg fits around you

Why is everybody burning sky  
Misfit plug and chicken pie  
Walk in file and dance in line  
Straightedge tango sequins shine

The ground is steady  
The stiff is stiff  
The cobweb's torn  
The tide is tired  
You're so alone  
You're so awake  
You wish you'd never been awake

The knock goes off and the knock goes out  
The city spills  
There's a (lover who screams)  
The sickness fills  
When the night gets tough  
You wish you'd never been so so so skinny

(walk in line dance in file)

Sicking all night and working all day  
Spin with fright when you're finding no way  
And the drums get dark in night or day  
Sicking all night and working all day

See my grandad go...

(walk in line dance in file)

Walk and dance in single file  
Right up to the bread in here  
Couldn't find the bread in there

We couldn't find the bread  
And we couldn't find the heart  
And we worked so hard  
We worked so heartbeat

If I look up there  
If I look a fool  
If I look up there

If I look a fool

Jack went up the  
Jack came down the  
Jack and Jill  
Went up the hill  
Jack came flying down the still  
Jack what're you doing Jack?  
I don't know - I'm back!  
Oh no!

I told you not to put on those trousers  
Don't put on the trousers, don't put on the trousers  
Your dress is too starched  
It's too starched

You got a high class face today  
You ought to have used nailpolish

Lights out fast and sleep at night  
Lights out fast and sleep at night  
Turn the light out  
Get into bed  
Cover yourself up  
Your head  
Your head  
Your head  
Your head!
