

Feel The Same

Bawal Clan

Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna

Me and u we go way back
When I'm with u girl there's no space or time
Wish we could chill and lay back
So I could tell u what's on my mind
Want to make u my baby
Cause u the baddest chick that 1 could find
Don't care what they be saayin
I ain't stoppin til I make u mine
Gotta make u mine

If I hit you up like kung fu
Then you can hear me now and know the blunt truth
This that shit that get you numb to
I can see it in your face you eating good food
Baby, you should slide through
I got the movies we can vibe to in my room
And what you see is more than tattoos
I always keep it 50 x 2 to keep you in the right mood

Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna

Now that we reacquainted
Could we kick it more like taekwondo
We startin to get faded
Need a buffet of you girl I want more
Lookin a little crazy
Startin to claim and say you rock my world
Know that u feel the same way
Don't want u to be leaving and be gone girl
U rock my world

Shawty hit me while tourin
She want all my green like it's sunny Califronia
I been on her mind racing thru it like a foreign
Tesla pick her up I kick her ass out in da mornin
She feel all my love my energy a hunnid for her
Got her runnin thru da city for me shawty scorin
Call me papi chulo I put her inside a foreign
Runnin thru dem bricks whippin up shit I'm never snorin

Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna
Feel the same, I know you wanna

(Feel the same way too)
