

Guerra

Bawal Clan

Ibat iba, pare-parehas
Di ma-eche pwera, parang nilito sa guerra
Ibat iba, pare-parehas
Ano na nga ang kulay ng iyong bandera (Ha? Ha? Ha?)

Kickin' symphonies and I spit this here with ease
Feel the wind brought by the breeze
And the leaves brought by the season
Fitted dungarees while I'm hittin' on the trees
Ain't no need to speak no treason
Don't even need no reason

Peeping through a peephole, you see a billion people
Nalito sabay nahilo, thought that seat's a vehicle
Hit it with a stick but you'd think that was a siko
See the move is lethal, they call it abaniko

Royal feeling regal, fly just like an eagle
Diving when you see food, daming iniipon
Talking all that shit, dami mo na ring inipot
Dating nalito ang dami ng pinapaikot

Ibat iba, pare-parehas
Di ma-eche pwera, parang nilito sa guerra
Ibat iba, pare-parehas
Ano na nga ang kulay ng iyong bandera (Ha? Ha? Ha?)

Born war ready, holding down the fetti
Only round the corners where they blow the smoke heavy
Bathing you with acid. Yeah, I'm leaving with no bodies
Got me masterminding hits, I'm tryna be Don Gotti

Green - White - Green, I stay reppin' that flag
Never think twice, never check on that tag
Throwing haymakers you chucking that jab
You know my people be getting that bag

This is warfare, no morphin but we burn here
Like a war scene, I was born here
Raised amongst thieves in the frontier
Lost my front teeth when I lost fear (Yeah, yeah, yeah)

The violence they cheer for I do when I'm bored
I'm more into pen but I pick up a sword
A genius, a giant, an african lord
But to you my nigga you best call me a god!

Ibat iba, pare-parehas
Di ma-eche pwera, parang nilito sa guerra
Ibat iba, pare-parehas
Ano na nga ang kulay ng iyong bandera (Ha? Ha? Ha?)
