Baxter Dury

She's just a dog without a lead
She's just a lonely lady now
She feels the need to try to please other people all of the time

I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog

We're all the same, we're both to blame
We're all fucked in the head
We're all the same, we're both to blame
We're all fucked in the head

Let your eyes gently weep upon my sleeve
Let your eyes gently weep upon my sleeve
Let your eyes gently weep upon my sleeve
Let your eyes gently weep upon my sleeve

I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
I'm just below where no one goes
Beneath the underdog
