

## But I Think

Baxter Dury

And I think this sight  
That your using to lose me  
And I think that times  
Where you need to abuse me  
But I Think that sign  
Where becoming strangers  
We can't control  
What to do with our lives  
There's a time you where meant to call me  
Was I off someone who knew you  
So let's talk  
Think you where near me  
And I think this sight  
That you where using to lose me  
I won't run if you don't run like fools  
Like fools  
What will become of you and I don't know  
I don't know  
I won't run if you don't run like fools  
Like fools  
What will become of you and I don't know  
I don't know
