

## D.O.A.

Baxter Dury

Drag me up and watch me go  
It's never like I'm on the road  
For long, I'm in love with no one

Okay, okay, okay, I understand  
Gold lapels, pearls of shame  
I'm streaming, I'm slipping away

We broke the bread, we did what we did  
Oh marsh hen, I'm here for you  
Slip to me, it's B

Drag me up and watch me go  
It's never like I'm on the road  
For long, I'm in love with no one

There's no victory for you and me  
I'll hold your hand

We're D.O.A., we're D.O.A.  
Ivory castles just slip that way, we're civilians  
Cheap meats  
You tried your best too, we both did

Drag me up and watch me go  
It's never like I'm on the road  
For long, I'm in love with no one

D.O.A.  
D.O.A.  
D.O.A.  
D.O.A.

Momma's gonna come down to your street  
Love's disappear this way  
Momma's gonna come down to your street  
Love's disappear this way
