

Daylight

Baxter Dury

You drove to knock me
Leave me in daylight
The knife in my heart
All I was wanting was something different
Not a cold skill in your hand

But we lost
All that love there tonight

You were so lovely
Standing in driveway
With your eyes flickering in the wind
I was just smiling laughing at nothing
But that moment we were the same

But we lost
All that love there tonight

When you rang me
Told me I'm special
I waited all the next day
Cuz you went missing into the nighttime
And I knew that was it forever

But we lost
All that love there tonight
