

The Sun

Baxter Dury

Jenny doesn't like the sun, Johnny doesn't like the sun
Sits at home playing with his gun
Johnny doesn't like the sun, Johnny doesn't like the sun
Sits at home playing with his gun

No one told us nothing, no one told us nothing, nothing at all
No one told us nothing, nothing at all
Johnny doesn't like the sun, Johnny doesn't like the sun
Sits at home playing with no one

No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone

No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone

No one ever told us that we're going to be left alone
No one ever told us that we're going to be left alone
