

Golborne Road scrubbed up well
Mister Travis looks awfully proud
Bored men outside shops
She says nothing at all to us

All I know, is we're together now, together now
All I know, is we're together now, together now

Trellick Towers and it's council posh
She's in her lingerie, she's doing well
Pushes you out, quite a little stir
She says nothing at all to her

All I know, is we're together now, together now
All I know, is we're together now, together now

Undesirables pretend they're busy
Loud men drown in silence
Smashed again by the successful buzz
She says nothing at all to us

All I know, is we're together now, together now
All I know, is we're together now, together now
All I know, is we're together now, together now
All I know, is we're together now, together now

Whoa, whoa, whoa, whoa, whoa
